

# Introduzione ad Horizon 2020

## Pilastri, tipologie di azione e regole di partecipazione

Università degli Studi di Foggia  
28 ottobre 2019

Matteo Sabini

- Project Manager
- Thematic areas: bioeconomy, NMP, biotechnologies
- EEN Agrifood SG member
- Trainer for the EC Tender International Service Facility

- E-mail [sabini@apre.it](mailto:sabini@apre.it)
- Skype [sabini.matte](https://www.skype.com/people/sabini.matte)
- LinkedIn <https://www.linkedin.com/in/matteosabini3/>

## Mission

Promuove e supporta la partecipazione italiana ad Horizon 2020

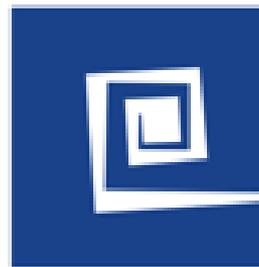

Contribuisce al miglioramento della "qualità" della partecipazione italiana nei programmi europei di Ricerca & Innovazione

## NCP

APRE ospita tutti i Punti di Contatto Nazionale (NCP) di Horizon 2020

## Dove

Roma – sede principale  
Bruxelles – Liaison Office

# APRE

Agenzia per la Promozione  
della Ricerca Europea

Associazione di ricerca **no-profit**

Fondata nel **1989** → **30 anni di esperienza** nei programmi europei di ricerca

Lavora in stretto contatto con il **MIUR**

**135 Soci**

**18 sportelli regionali**

# Cosa facciamo

## NCP

- Orientamento bandi
- Pre-screening proposte
- Informazione
- Individuazione policy

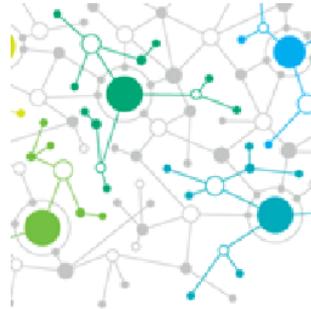

## Formazione

- Formazione in aula
- Webinar
- Coaching

## Networking

- Liaison Office
- Ricerca partner
- Advocacy

## Informazione

- APRE *magazine*
- Studi e pubblicazioni
- Analisi dati

# Oltre 130 Soci interdisciplinari e intersettoriali

#APREcon2019  
C'è valore nella rete

## LA RETE DEI SOCI APRE

Agenda e sito: <https://conferenzaapre2019.wixsite.com/apre>  
Live: <https://www.apre.it/eventi/2019/ii-semestre/conapre2019/>

# Excellent Science

## H2020 – Pillar 1

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€13 095  
million**

**erc**

**Supporting world leading  
scientists in frontier research**

# ERC – I principi

- **1 ricercatore; 1 host institution; 1 progetto; 1 criterio di selezione** (excellence)
- No consorzi, no networks, no co-financing → focus su **Principal Investigator**
- Applications in **ogni ambito di ricerca** (incluso le SSH)
- **Ricercatori indipendenti** da qualsiasi parte del mondo, di ogni età, in ogni fase della propria carriera
- Le Host institutions devono mettere in condizione I ricercatori di dirigere e gestire I propri fondi
- **Portabilità del grant** → il ricercatore può cambiare host institution
- Il progetto può durare massimo 5 anni e può essere portato avanti in uno dei 28 Stati Membri o negli Associated Country

# ERC – Le azioni

## Starting Grant (StG)

Early career top researchers, **2-7 years after PhD** | up to €1.5 mio.

## Consolidator Grant (CoG)

Top researchers, **7-12 years after PhD** | up to €2 mio.

## Advanced Grant (AdG)

Senior researchers with a significant **ten-year-track record** | up to €2.5 mio.

## Synergy Grant (SyG)

2-4 excellent researchers and their teams (**researchers with complementary skills, knowledge and resources**) project duration max. 6 years | up to a maximum of €10 mio.

## Indicative summary of main calls from the 2019 budget<sup>1</sup>

	<i>Starting Grant</i>	<i>Consolidator Grant</i>	<i>Advanced Grant</i>	<i>Synergy Grant</i>	<i>Proof of Concept Grant</i>
<i>Call identifier</i>	<b>ERC-2019-StG</b>	<b>ERC-2019-CoG</b>	<b>ERC-2019-AdG</b>	<b>ERC-2019-SyG</b>	<b>ERC-2019-PoC</b>

# HORIZON 2020

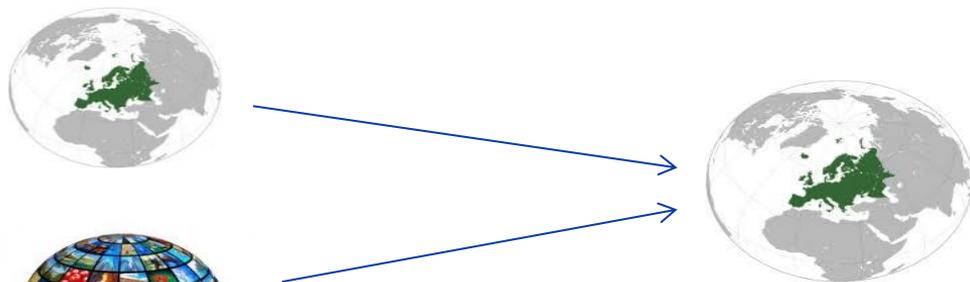

**€6 162  
million**

**Providing training & career  
development opportunities**

<b>Which action?</b>	<b>ITN</b> Innovative Training Networks <i>(Host applies)</i>	<b>IF</b> Individual Fellowships <i>(Individuals apply)</i>	<b>RISE</b> Research and Innovation Staff Exchange <i>(Host applies)</i>	<b>COFUND</b> Co-Funding of Regional, National and International Programmes <i>(Funder applies)</i>
<b>What does it offer?</b>	High-quality research training delivered through international and interdisciplinary networks, industrial doctorates or joint doctorates	Opportunities to work on personal research projects by moving between countries and possibly sectors to acquire new skills	International and/or intersectoral exchanges of staff members involved in research and innovation to develop sustainable collaborative projects and transfer knowledge	Regional, national or international programmes to foster excellence in researchers' training, mobility and career development
<b>Who is it for?</b>	Networks of organisations that train researchers at doctoral level (less than four years of full-time research experience and no doctoral degree)	Postdoctoral researchers (doctoral degree or at least four years of full-time research experience)	Partnerships of organisations that undertake a joint research project supported by the exchange of their staff (researchers, technical, administrative and managerial staff)	Organisations funding or managing doctoral programmes or fellowship programmes

# IF- European and Global

**European Fellowships**

EFs: 12-24 months

**Global Fellowships**

GFs: 12-24 months for the outgoing phase plus 12 month return phase in Europe

# IF European Fellowships

## 4 European Fellowship schemes

- Standard
- Career restart Panel
- Society & Enterprise Panel
- Reintegration Panel

### Mobility Rule

Researchers must not have resided or carried out their main activity in the country of their host organization for more than 12 months in the previous 3 years prior to the submission

### Countries where the host institution is located

- EU Member States (MS)
- Associated Countries (AC)

# IF European Fellowship - Standard

- **1 to 2-year research stay in Europe** (MS/AC)
- **Experienced researchers of any nationality** (→ mobility rule), *many successful applications from Chinese researchers in H2020*
- **Host institution:**  
active in Research & Development, e.g. University, Research Organization, Company (incl. SME), NGO, ...
- Submission and evaluation in eight **scientific panels**: CHE, SOC, ECO, ENG, ENV, LIF, MAT, PHY
- **Host institution and supervisor can be chosen freely by the researchers**  
(researchers must look for a supervisor/host institution, who is willing to supervise the applicant during the stay – necessary)

# IF European Fellowship – Career Restart Panel

- Assistance in resuming a scientific career after a break
- Conditions:
  - At the submission deadline not active in research for at least 12 consecutive months in the 18 months prior to the deadline
  - Modified mobility rule: Researchers must not have resided or carried out their main activity in the country of their host organisation for more than 3 years in the previous 5 years.

Submission and evaluation in one multidisciplinary Panel

# IF European Fellowship – Society & Enterprise Panel

- Assistance in **doing research in the non-academic sector**
- Conditions:
  - Host institution must be a non-academic institution and be located in a MS/AC
  - Modified mobility Rule: the researcher must not have resided and/or carried out his/her main activity for more than 3 years within the last 5 years immediately prior to the application

Submission and evaluation in one multidisciplinary Panel

# IF European Fellowship – Reintegration Panel

- Assistance in returning to Europe
- Conditions:
  - Researchers with MS/AC nationality or MS/AC long-term residence (at least 5 consecutive years in Europe as a researcher in the past)
  - Mobility from a third country to MS/AC (where the host institution is located)
  - Modified mobility rule: Researchers must not have resided or carried out their main activity in the Country of their host organisation for more than 3 years in the previous 5 years

Submission and evaluation in one multidisciplinary panel

# IF Global Fellowship

- **1 to 2-year research stay outside of Europe**  
(→ mobility rule), **mandatory 1-year return phase in Europe (MS/AC)**
- **Experienced researchers with MS/AC nationality or MS/AC long-term residence**  
(at least 5 consecutive years in an MS/AC as a researcher in the past)
- **2 host institutions**
  - in a third country (partner organisation)
  - in MS/AC (return phase),  
contractual partner of the EU (employer for the whole time)
- **Submission and evaluation in 8 scientific panels: CHE, SOC, ECO, ENG, ENV, LIF, MAT, PHY**

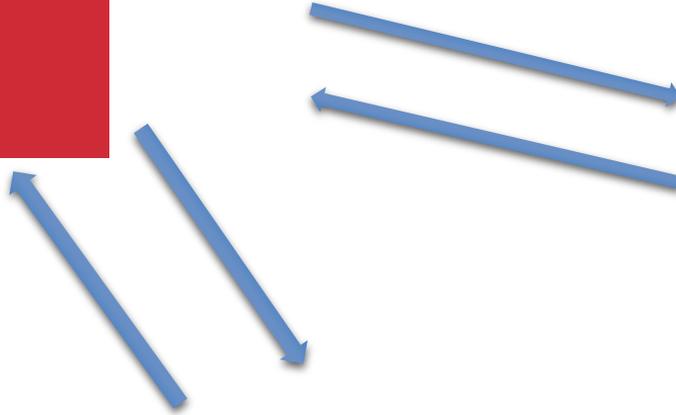

# Research and Innovation Staff Exchange (RISE)

- Promoting international and inter-sectoral collaboration through research and innovation staff exchanges
- **Transfer of knowledge through secondment of staff members**, from research to market and vice versa
- Fostering a shared culture of research and innovation
- At least **3** institutions from **3 different** countries, of which **at least 2** from MS/AS
- **Cross-sectoral transfer of knowledge** and **enhancement of skills and expertise** of the staff seconded
- In case all institutions belong to the same sector (e.g. academic sector): **At least 1** institution from a third country
- Maximum duration of the programme: (up to) **4 years**

# RISE Partnership – Esempio 1

The international dimension does not exclude exchanges within the same sector

Academic Sector

Academic Sector  
or  
Non-Academic Sector

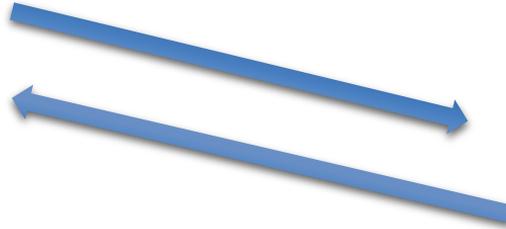

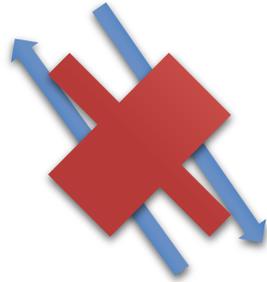

The European dimension allows only intersectoral secondments

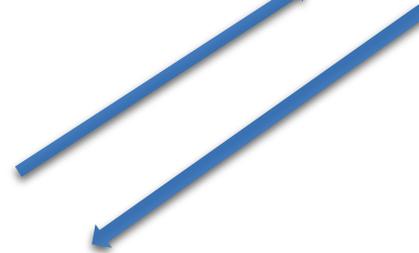

Non-Academic Sector

# RISE Partnership – Esempio 2

Academic Sector

Non-Academic Sector

Academic Sector

The European dimension allows only intersectoral secondments

# Innovative Training Networks (ITN)

MSCA - main EU programme for structured doctoral training

- Objective
  - raise excellence and structure research and doctoral training
  - train a new generation of creative, entrepreneurial and innovative early-stage researchers
- Scope
  - European Training Networks (ETN), European Industrial Doctorates (EID) or European Joint Doctorates (EJD)
  - Triple 'i' dimension of mobility and particular focus on innovation skills
- Expected Impact
  - structure research and doctoral training in Europe
  - trigger cooperation and exchange of best practice among participants
  - enhance researchers' employability and provide them with new career perspectives

# Innovative Training Networks (ITN)

## European Training Networks (ETN)

- The most general mode, epitomising the ITN policy objectives
- Does not require mandatory doctoral training but...

## European Industrial Doctorates (EID)

- Focus on academic/non-academic collaboration
- Widening fellows' career horizons

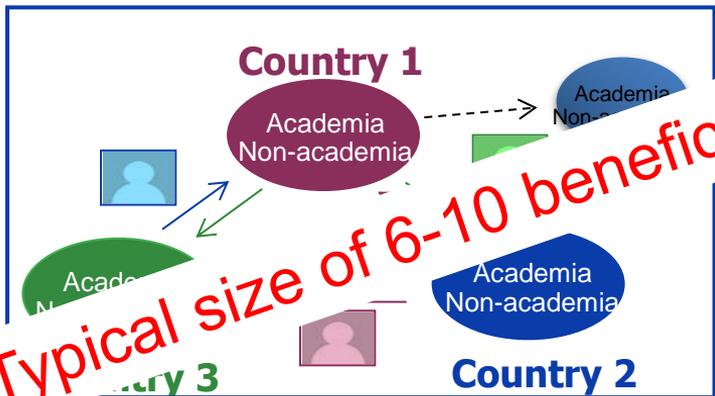

## European Joint Doctorates (EJD)

- Promoting greater structural co-operation between universities
- Offering more employment opportunities to fellows

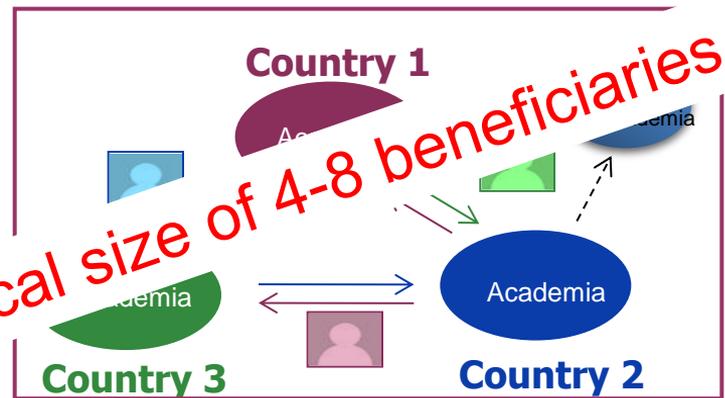

# ITN – Main features

- Duration of projects: maximum 4 years
- Consortium agreement: required only for EID
- Support to early-stage researchers only
- Fellowships of 3-36 months
- Maximum 540 researcher-months per consortium (180 for EID with 2 partners)
- Separate multidisciplinary panels for EID and EJD

# ITN – consortia

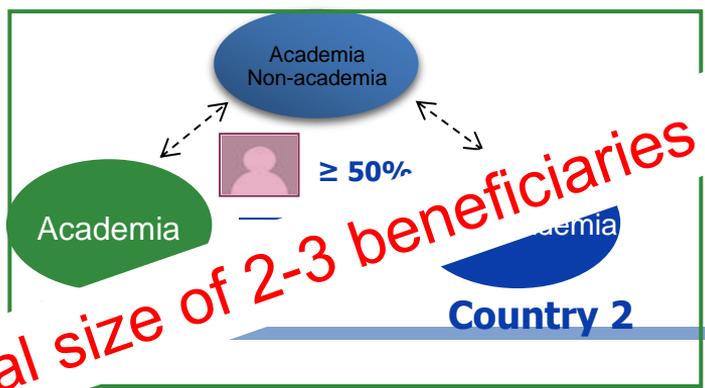

European Training

European Joint Doctorates

European Industrial Doctorates

Funding scheme	Publication	Budget	Deadline

<b>COFUND 19</b>	<b>04.04.2019</b>	<b>90 Mio. €</b>	<b>26.09.2019</b>
COFUND 20	08.04.2020	100 Mio. €	29.09.2020

Opportunità per ricercatori: <https://euraxess.ec.europa.eu/>

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€2 488  
million**

**EU research infrastructures**

# Research Infrastructures

The term ‘research infrastructures’ refers to facilities, resources and related services used by the scientific community to conduct top-level research in their respective fields, ranging from social sciences to astronomy, genomics to nanotechnologies.

RIs may be ‘**single-sited**’ (a single resource at a single location), ‘**distributed**’ (a network of distributed resources), or ‘**virtual**’ (the service is provided electronically).

## Objectives

1. Developing the European RIs for 2020 and beyond
  - Developing new world-class RIs
  - Integrating and opening national and regional RIs of European interest;
  - Development, deployment and operation of ICT based e-infrastructures:
2. Fostering the innovation potential of RIs and their human resources
3. Reinforcing European RI policy and international cooperation

# Industrial Leadership

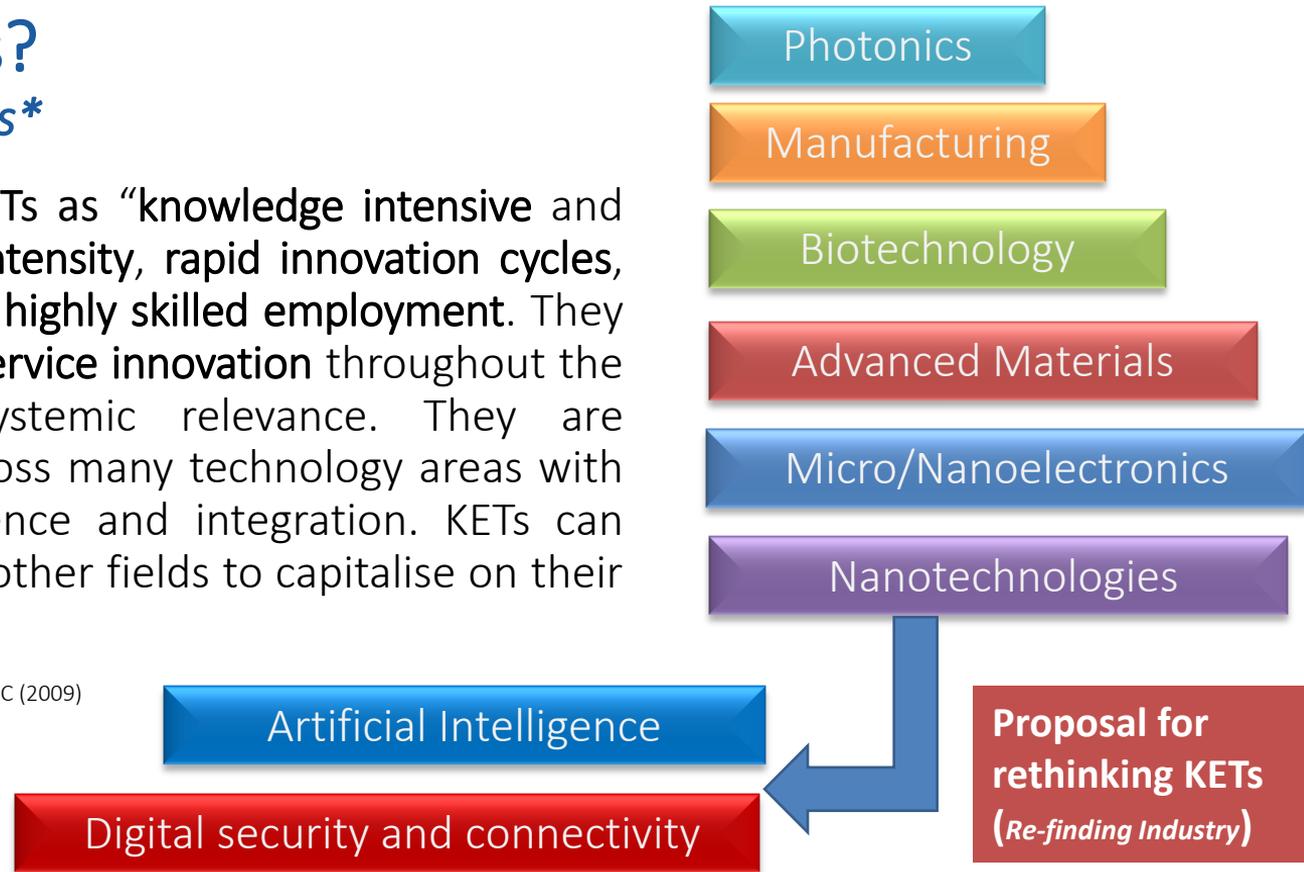

## H2020 – Pillar 2

# What are the KETs?

## Key Enabling Technologies\*

The Commission defines KETs as “knowledge intensive and associated with high R&D intensity, rapid innovation cycles, high capital expenditure and highly skilled employment. They enable process, goods and service innovation throughout the economy and are of systemic relevance. They are multidisciplinary, cutting across many technology areas with a trend towards convergence and integration. KETs can assist technology leaders in other fields to capitalise on their research efforts”

\*Current situation of key enabling technologies in Europe, SEC (2009)

# ICT priorities

**Six main activity lines have been identified in the ICT-LEIT part of the Work Programme:**

- A new generation of components and systems
- Advanced Computing
- Future Internet
- Content technologies and information management
- Robotics
- Micro- and nano-electronic technologies, Photonics

# SPACE priorities

- Prioritising the existing two EU Space flagships of European Global Navigation Satellite System (EGNSS) and Earth Observation reaping the benefits they can generate in the coming years and ensuring their state-of-the-art also in the future;
- Ensuring support for the third priority of the EU space policy: the protection of space infrastructure, and in particular the setting up of a Space Surveillance and Tracking system (SST) at European level;
- Ensuring support to EU industry to meet the objectives defined in the Commission communication on Space Industrial Policy, notably to maintain and enhance industry's competitiveness and its value-chain in the global market;
- Ensuring that Europe's investments made in space infrastructure are exploited to the benefit of citizens; as well as supporting European space science; and
- Enhancing Europe's standing as an attractive partner for international partnerships in space science and exploration.

# NMPB priorities

- Open Innovation Test Beds (OITBs)
- Modelling and characterization
- Nanotechnologies
- Advanced materials
- Advanced manufacturing and processing (Factories of the Future – FOF; Sustainable Process Industry through Resources and Energy – SPIRE)
- Biotechnologies
- Energy Efficient Buildings (EEB)

# HORIZON 2020

**€2 842  
million**

**RISK FINANCE**

Cooperation with  
*European Investment Bank &  
European Investment Fund*

EURO STOXX 600  
**176.93 pt**

Dow Jones  
**7.365.67 pt**

Debt & Equity Financing

**VENTURE CAPITAL**

**Access to risk finance**

INVESTMENT-READY - BANKABILITY - AFFORDABLE FINANCE - SMES-MIDCAPS - GROWTH-EXPANSION

# HORIZON 2020

20% of the total budget for societal challenges and LEITs to go to SMEs

SME Instrument (€3 000 million)

## Strengthening participation of innovative SMEs

# Societal Challenges

## H2020 – Pillar 3

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€7 472  
million**

**Better health for all**

PREVENTING DISEASE - BETTER DIAGNOSTICS AND TREATMENTS - AGEING WELL - SUSTAINABLE HEALTH

# SC1 Objectives

- improve our understanding of the causes and mechanisms underlying health, healthy ageing and disease;
- improve our ability to monitor health and to prevent, detect, treat and manage disease;
- support older persons to remain active and healthy;
- and test and demonstrate new models and tools for health and care delivery.

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€3 851  
million**

**Making the best of our biological resources  
for food security and sustainable growth**

- BLUE GROWTH - BIOECONOMY - GREEN GROWTH - FOOD SECURITY - RENEWABLE BIOLOGICAL RE

## SC2 Objectives

- Agriculture and forestry
- Agri-food sector for a safe and healthy diet
- Aquatic living resources and marine research
- Bio-based industries

**Clean, safe,  
reliable &  
affordable  
energy**

**Secure, clean &  
efficient energy**

# SC3 Objectives

- Reducing energy consumption and carbon footprint
- Low-cost, low-carbon electricity supply
- Alternative fuels and mobile energy sources
- A single, smart European electricity grid
- New knowledge and technologies
- Robust decision making and public engagement
- Market uptake of energy and ICT innovation.

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€6 339  
million**

## **Smart, Green & Integrated Transport**

ENT TRANSPORT - NEXT GENERATION OF INFRASTRUCTURES - BETTER MOBILITY - MOBILITY FOR C

# SC4 Objectives

- Sustainable transports
- Integration of transports
- Blue Growth
- Autonomous transports
- Green Vehicles

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€3 081  
million**

**Climate action, environment,  
resource efficiency & raw materials**

MARKET - SUSTAINABLE SUPPLY OF RAW MATERIALS - LOW CARBON ECONOMY - MANAGING WATER RESOURCES

# SC5 Objectives

- Fighting and adapting to climate change
- Protecting the environment, sustainably managing natural resources, water, biodiversity and ecosystems
- Ensuring the sustainable supply of non-energy and non-agricultural raw materials
- Enabling the transition towards a green economy and society through eco-innovation
- Developing comprehensive and sustained global environmental observation and information systems
- Cultural heritage

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€1 310  
million**

**Inclusive, innovative  
& reflective societies**

LE AND INCLUSIVE GROWTH - CONTRIBUTING TO THE EUROPEAN RESEARCH AREA - STUDYING NEW

# SC6 Objectives

- New ideas, strategies and governance structures for overcoming the crisis in Europe (resilient economic and monetary Union, EU growth agenda, EU social policies, the future of European integration, emerging technologies in the public sector).
- The young generation in an innovative, inclusive and sustainable Europe (job insecurity, youth mobility, adult education, social and political engagement of young people, modernisation of public administrations).
- Reflective societies: transmission of European cultural heritage, uses of the past, 3D modelling for accessing EU cultural assets.
- Europe as a global actor: focusing research and innovation cooperation with third countries, new geopolitical order in the Mediterranean, EU eastern partnership and other third countries.
- New forms of innovation in the public sector, open government, business model innovation, social innovation community, ICT for learning and inclusion

# HORIZON 2020

**€1 695  
million**

**Cyber  
security**

**Natural  
hazards**

**Safeguarding  
a secure society**

FACE BUILDING - COMPETITIVENESS - FIRST RESPONDERS - FIGHT AGAINST CRIME AND TERRORISM

# SC7 Objectives

- to enhance the resilience of our society against natural and man-made disasters, ranging from the development of new crisis management tools to communication interoperability, and to develop novel solutions for the protection of critical infrastructure;
- to fight crime and terrorism ranging from new forensic tools to protection against explosives;
- to improve border security, ranging from improved maritime border protection to supply chain security and to support the Union's external security policies including through conflict prevention and peace building;
- and to provide enhanced cyber-security, ranging from secure information sharing to new assurance models.

# EIC Pilot

## European Innovation Council

# European Innovation Council

Support to innovations with breakthrough and disruptive nature and scale up potential that are too risky for private investors.

**European  
Innovation  
Council**

Helping innovators create markets of the future, leverage private finance, scale up their companies. Innovation centric, risk taking & agile, proactive management and follow up

Two complementary instruments bridging the gap from idea to investable project

**Pathfinder: grants**  
(from early technology  
to pre- commercial)

**Accelerator:**  
**grants & blended finance**  
(from pre-commercial  
to market & scale-up)

*'The European Council invites the Commission to launch a new pilot initiative on breakthrough innovation within the remaining period of Horizon 2020. A European Innovation Council will be set up under the next Multiannual Financial Framework to identify and scale up breakthrough and disruptive innovation.'*

*European Council conclusions, 28 June 2018*

- The EIC pilot supports top-class innovators, entrepreneurs, small companies and scientists with bright ideas and the ambition to scale up internationally. It brings together the parts of Horizon 2020 that provide funding, advice and networking opportunities for those at cutting edge of innovation.
- With this aim the European Commission on the 18 March 2019 published the updated version of the Work Programme called [Enhanced European Innovation Council \(EIC\) pilot](#) for the period 2019-2020 of Horizon 2020 programme, with the allocated budget of around 2 billion euros. The updated Work Programme brings together a number of existing funding instruments and some new features, which will foresee next Horizon Europe 2021-2027 Programme.

#### THE EIC: EU LEADERSHIP IN THE NEXT WAVE OF INNOVATION

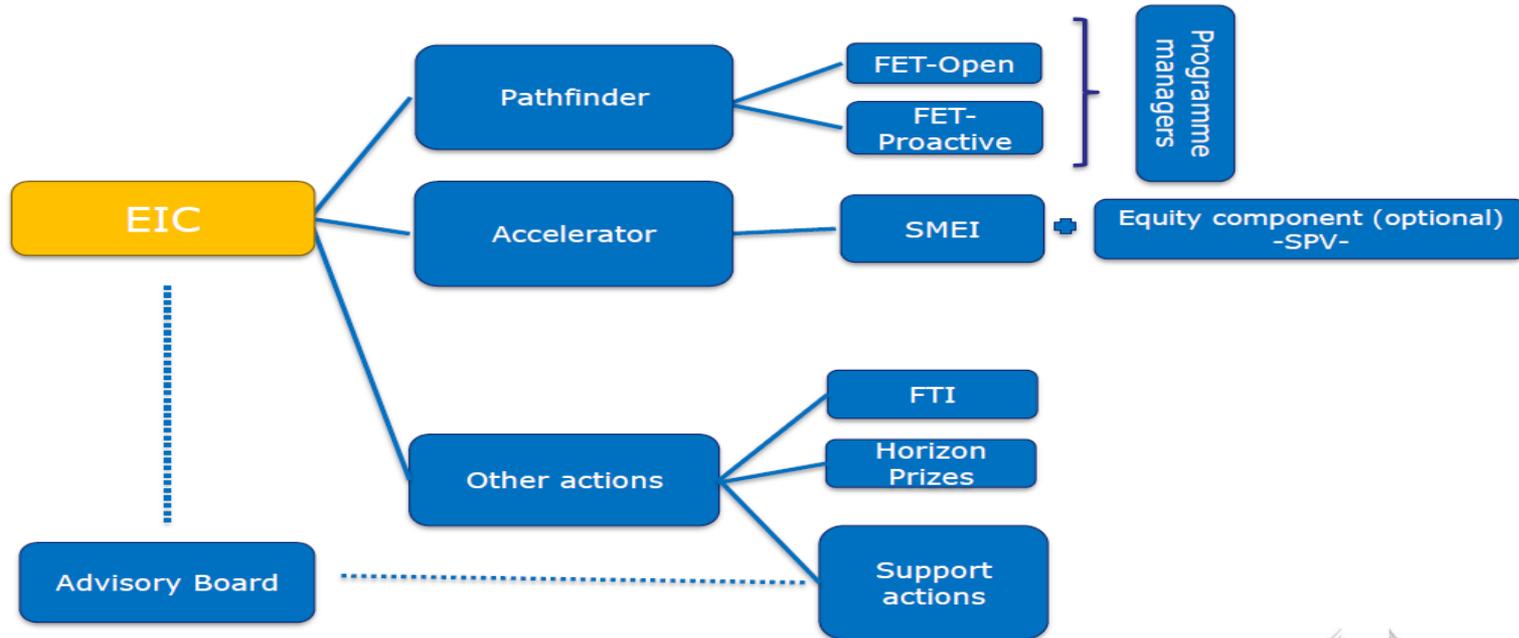

# An Enhanced EIC pilot for 2019-2020

*Main objectives of an enhanced pilot are to:*

1. **Support disruptive and breakthrough innovation**, complementing the longer term technological and sectoral strategies supported elsewhere in Horizon (e.g. Public Private Partnerships, EIT KICs) and generating impact from the support for breakthrough science (e.g. ERC)
2. **Finance high risk innovations**, which are too high risk for private investors or for financial instruments (future InvestEU, current EFSI, InnovFin and VentureEU). Moreover, the EIC should generate a pipeline of projects and companies that are investable for InvestEU and/or private investors
3. **Scale up the high potential innovative startups and SMEs in Europe**, which is not possible at Member State level, through providing higher levels of finance and connecting startups to EU wide ecosystems.

# Enhanced EIC pilot for 2019-2020

Research and Innovation

! Not legally binding

## PATHFINDER: Researchers, technologists

- ▶ For radically new technologies emerging from collaborative research
- ▶ Grant funding of up to €4 million (100% of costs)
- ▶ From proof of concept to demonstration of commercial viability
- ▶ Access to EIC coaching and mentoring services
- ▶ Majority of funding is open (no predefined themes). Strategic breakthrough technologies are also supported (challenge-based)

## ACCELERATOR: Start-ups, SMEs and entrepreneurs

- ▶ For development and scaling up of high risk innovations by startups and SMEs
- ▶ Grant funding of up to €2.5 million (70% of costs)
- ▶ Option of equity investment of up to €15 million
- ▶ Access to EIC coaching and mentoring services, pitches with corporates, VCs, etc
- ▶ All funding is open (no predefined thematic areas)

2<sup>nd</sup>  
step

Pathfinder applications must be **interdisciplinary**, offer a **radical vision** and a **breakthrough technology target**.

They will also be assessed on their potential to **create new markets and social and economic impacts**.

Applications to the accelerator will be assessed first by a set of independent experts based on their potential for **future social or economic impact or market creation, the high risk/ high potential nature of the innovation, and the business plan**.

The applicants with the highest overall assessments will be invited to **pitch to a panel** of experienced investors and entrepreneurs who will take a go/no-go decision.

# Grant or equity?

3<sup>rd</sup>  
step

## Grant Only

Applicants will be informed about the results of the assessment by independent experts within five months of closure of the call, and successful applicants will receive the grant three months later.

## Grant Only

Applicants will be informed about the result within one month and receive grants within five months.

## Grant + Equity

Applicants will be informed about the result within one month and receive grants within five months. For the equity, additional due diligence will be undertaken before receiving the investment.

# FET programme

- **FET Open** funds *projects on new ideas for radically new future technologies*, at an early stage when there are few researchers working on a project topic. This can involve a wide range of new technological possibilities, inspired by cutting-edge science, unconventional collaborations or new research and innovation practices.
- **FET Proactive** nurtures emerging themes, seeking *to establish a critical mass of European researchers in a number of promising exploratory research topics*. This supports areas that are not yet ready for inclusion in industry research roadmaps, with the aim of building up and structuring new interdisciplinary research communities.
- **FET Flagships** are 1-billion, 10-years initiatives where hundreds of excellent European researchers unite forces to *focus on solving an ambitious scientific and technological challenge*, like understanding the Human Brain or developing the new materials of the future, such as Graphene.

THE EU FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

**HORIZON 2020**

**€816  
million**

**EXCELLENCE**

**Widening participation**

**HORIZON 2020**

The logo for the European Institute of Innovation & Technology (EIT) features the lowercase letters 'eit' in a dark blue, sans-serif font. The 'e' is stylized with a white dot and is partially enclosed by a white circular shape that overlaps with a larger, light blue circular graphic in the background. This graphic consists of several concentric, semi-transparent circles in shades of blue and green, creating a sense of depth and movement.

**eit**

# RICERCA DI BASE

RESEARCH  
and  
INNOVATION  
action

INNOVATION  
action

SOCIETA' /  
MERCATO

# RIA - *Research & Innovation action*

- Sono progetti la cui attività principale è **Ricerca e Sviluppo** il cui obiettivo è ottenere nuova conoscenza scientifica e tecnologica e/o verificare la fattibilità di una nuova/migliorata tecnologia, prodotto, processo, servizio o soluzione.
- Può includere ricerca di base e applicata, sviluppo e integrazione tecnologica, test e realizzazione di prototipi su piccola scala in laboratorio o ambienti simulati.
- Può contenere attività di dimostrazione o attività pilota, ma in misura limitata, allo scopo di dimostrare la fattibilità tecnica in un ambiente quasi operativo.
  - **100% funding rate costi diretti**
  - **25% indirect costs**
- Durata: 2-3 anni
- Grandezza: dai 3 per l'eleggibilità – 7 – 10 - .....

# IA - Innovation Action

- Azioni di Innovazione pura
- un'azione costituita prevalentemente da attività volte direttamente a produrre piani, progetti o disegni per nuovi, modificati o migliorati prodotti, processi o servizi. A questo scopo possono includere prototipazione, sperimentazione, dimostrazione, pilot, validazione del prodotto su larga scala e replica di mercato "
  - 70% funding rate direct costs (100% for non-profit legal entities)
  - 25% indirect costs
- Durata: 3-5 anni
- Grandezza: dai 3 per l'eleggibilità – 7 – 12 - .....

# CSA - Coordination and Support Action

- Azioni costituite principalmente da misure di supporto quali:
  - la standardizzazione, la divulgazione, sensibilizzazione e comunicazione, networking, servizi di coordinamento o di supporto,
  - i policy dialogue ed esercizi di apprendimento reciproco e studi, compresi studi di progettazione per nuove infrastrutture e che possano comprendere anche le attività complementari di pianificazione strategica, collegamento in rete e il coordinamento tra i programmi di diversi paesi.
  - Esempi: social platform, dissemination platform, international cooperation activities
    - 100% funding rate direct costs
    - 25% indirect costs

# Single stage Vs. Two-stage

## Single Stage

- Unica deadline
- Presentazione di una proposta completa (70 pag.)
- Template compilato in tutte le sue sezioni
- Valutazione → Grant agreement

## Two-Stage

2 deadline per 2 valutazioni

### 1° Stage

- Presentazione di una proposta breve (10 pag.)
- Template compilato solo parzialmente
- Valutazione → Invito a presentare proposta completa (**Threshold dinamico** - nr. Proposte che verranno finanziate X 3)

### 2° Stage

- Presentazione di una proposta completa
- Valutazione → Grant Agreement

# Horizon Europe

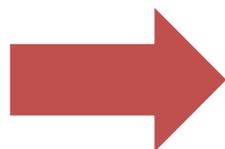

# Struttura preliminare

# Clusters in 'Global Challenges and Industrial Competitiveness'

Clusters	Areas of intervention	
Health	<ul style="list-style-type: none"> <li>• Health throughout the life course</li> <li>• Non-communicable and rare diseases</li> <li>• Tools, technologies and digital solutions for health and care, including personalised medicine</li> </ul>	<ul style="list-style-type: none"> <li>• Environmental and social health determinants</li> <li>• Infectious diseases, including poverty-related and neglected disease</li> <li>• Health care systems</li> </ul>
Culture, creativity and inclusive society	<ul style="list-style-type: none"> <li>• Democracy and Governance</li> <li>• Social and economic transformations</li> </ul>	<ul style="list-style-type: none"> <li>• Culture, cultural heritage and creativity</li> </ul>
Civil security for society	<ul style="list-style-type: none"> <li>• Disaster-resilient societies</li> <li>• Protection and Security</li> </ul>	<ul style="list-style-type: none"> <li>• Cybersecurity</li> </ul>
Digital, Industry and space	<ul style="list-style-type: none"> <li>• Manufacturing technologies</li> <li>• Advanced materials</li> <li>• Next generation internet</li> <li>• Circular industries</li> <li>• Space, including Earth Observation</li> <li>• Emerging enabling technologies</li> </ul>	<ul style="list-style-type: none"> <li>• Key digital technologies, including quantum technologies</li> <li>• Artificial Intelligence and robotics</li> <li>• Advanced computing and Big Data</li> <li>• Low-carbon and clean industry</li> <li>• Emerging enabling technologies</li> </ul>
Climate, Energy and Mobility	<ul style="list-style-type: none"> <li>• Climate science and solutions</li> <li>• Energy systems and grids</li> <li>• Communities and cities</li> <li>• Industrial competitiveness in transport</li> <li>• Smart mobility</li> </ul>	<ul style="list-style-type: none"> <li>• Energy supply</li> <li>• Buildings and industrial facilities in energy transition</li> <li>• Clean, safe and accessible transport and mobility</li> <li>• Energy storage</li> </ul>
Food, bioeconomy, natural resources, agriculture and environment	<ul style="list-style-type: none"> <li>• Environmental observation</li> <li>• Agriculture, forestry and rural areas</li> <li>• Circular systems</li> <li>• Food systems</li> </ul>	<ul style="list-style-type: none"> <li>• Biodiversity and natural resources</li> <li>• Seas, oceans and inland waters</li> <li>• Bio-based innovation systems in the EU Bioeconomy</li> </ul>

# Lessons Learned from Horizon 2020 Interim Evaluation

Support breakthrough innovation

Create more impact through mission-orientation and citizens' involvement

Strengthen international cooperation

Reinforce openness

Rationalise the funding landscape

Encourage participation

# Key Novelties in Horizon Europe

European Innovation Council

R&I Missions

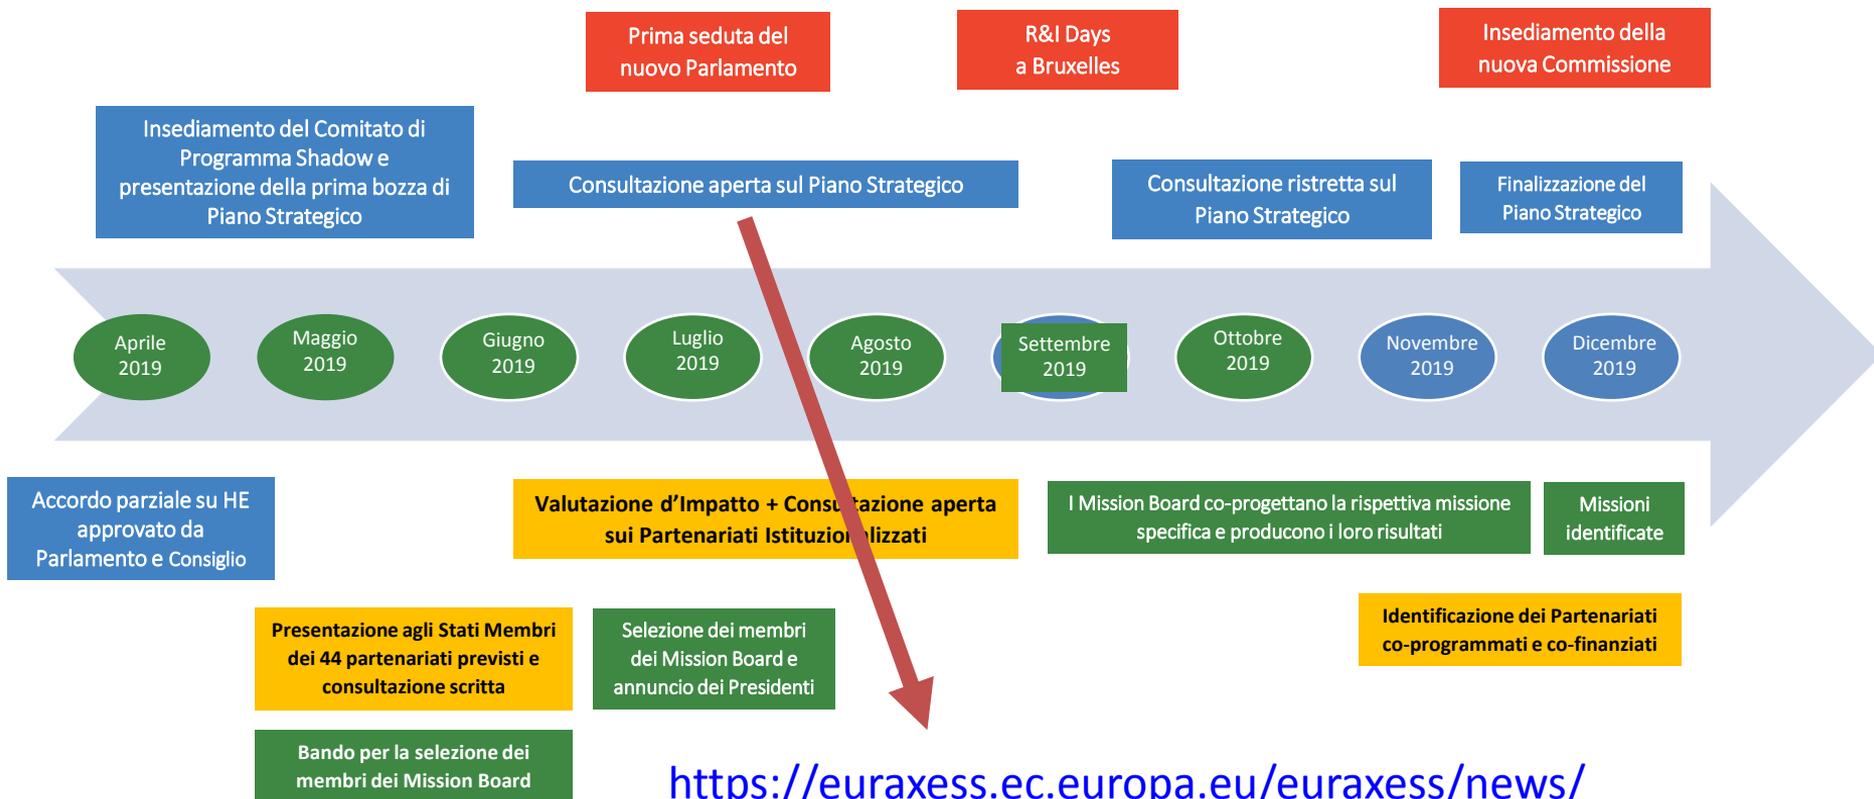

Extended association possibilities

Open science policy

New approach to Partnerships

Spreading Excellence
