LICENSOR provides a software application known as CONVERGE™ ("Licensed Software") and LICENSEE represents that it is an academic institution or other non-profit organization. The parties have agreed that LICENSOR shall license the Licensed Software to LICENSEE at no expense solely for the purposes of teaching, degree-granting programs and/or academic research that are part of the instructional processes performed by LICENSEE ("the Designated Purpose"). Therefore, in consideration of the mutual covenants, terms and conditions set forth below, the adequacy of which consideration is hereby accepted and acknowledged, the parties agree as follows:

1. Grant of License

- 1.1. LICENSOR hereby grants to LICENSEE, and LICENSEE hereby accepts, a limited, personal, royalty-free, non-exclusive, non-transferable object code license for authorised end users of LICENSEE ("End Users") to use the CONVERGE™ computational fluid dynamics computer software, and subroutines, updates, revisions and enhancements and the software program(s), module(s), or component(s) as designated in the Proposal, along with the License Key File, therefore, made by LICENSOR ("Licensed Software") under the terms of this Agreement and as further specified in the Exhibits. Each Super User must be specifically identified in Exhibit C and must agree to comply with the terms of this Agreement by appending their signature hereto.
- 1.2. No source code will be provided.
- 1.3. Any license granted herein is conditional on LICENSEE complying with all the terms of this Agreement.
- 1.4. The License Type shall be a Local Area Network (LAN) License, which allows the LICENSEE to use Licensed Software within a 5-mile radius from the License Site Location designated in Exhibit A.
- 1.5. LICENSOR shall provide LICENSEE access to the Licensed Software by delivering License Key(s) upon the acceptance of LICENSEE'S signed Agreement and completed Exhibits reflecting the License Site Location, Location Server and usage details. LICENSEE is responsible for the download and installation of the Licensed Software. License Keys shall be issued for a period of 12 (twelve) months, or other specified period, and will have to be reissued at respective increments upon expiry. License Keys may limit the use of the Licensed Software and require LICENSEE to obtain new License Keys from time to time.
- 1.6. The Licensed Software may be bundled with software programs that are owned by third-parties and distributed by LICENSOR under license from the third-party owner. These third-party software programs may be governed by their own license terms and, in such case, those terms will prevail over this Agreement as to LICENSEE'S use of the third-party software programs. Other third-party software programs may be sublicensed to LICENSEE under the terms of this License Agreement. In all cases, LICENSOR has no warranty or maintenance obligations for any third-party software products. Changes to the Licensed Software package that LICENSOR may make from time to time or the unavailability of sublicensing for such third-party software programs may make it necessary for LICENSEE to acquire, at its own expense, separate versions of the third-party software programs, if LICENSEE chooses to continue to use such third-party software or, if such third-party software programs are no longer available, LICENSEE may be required to stop using such third-party software programs. In the event LICENSOR is no longer able to sublicense a third-party software program to LICENSEE, LICENSOR may terminate the sublicenses for such software upon reasonable notice to LICENSEE.
- 1.7. Should the Licensed Software include any Open-Source Components, LICENSEE'S use of the Open-Source Components shall be governed by, and subject to, the terms and conditions of the related open-source and public licenses. LICENSOR can provide LICENSEE with the license name, author information, license source, access information, and other relevant information for Open-Source Components as required under the license terms for each Open-Source Component.

- 6.5. LICENSEE shall keep confidential and not disclose the Intellectual Property to any third-party or parties not directly affiliated with the LICENSEE. In addition, LICENSEE shall not use the Intellectual Property for the benefit of itself outside of the scope of this Agreement, or for the benefit of any third-party, or parties not directly affiliated with the LICENSEE, without the written consent of LICENSOR. Without limiting the generality of the foregoing, LICENSEE shall protect Intellectual Property with the same degree of care it uses to protect its own Intellectual Property of similar nature and importance, but with no less than reasonable care.

Notifications of any faults, such as License failure, shall only be deemed to be valid if LICENSOR is notified in writing immediately upon receipt of the Licensed Software affording the LICENSOR an opportunity to remedy the fault.

- 8.2. This shall apply in particular to, but not be limited to, Intellectual Property rights held by third parties, for which reason LICENSEE excludes liability on LICENSOR's part for any infringement of third-party Intellectual Property rights.
- 8.3. Under no circumstances shall LICENSOR or its officers, employees, successors and assigns be liable to LICENSEE for any damages caused by LICENSEE’s failure to perform its responsibilities under this Agreement.
- 8.4. If applicable law limits the application of the provisions of this clause 8, LICENSOR’s liability will be limited to the maximum extent permissible. For the avoidance of doubt, LICENSOR’s liability limits and other rights set forth in this Clause 8 apply likewise to LICENSOR’s affiliates, licensors, suppliers, advertisers, agents, sponsors, directors, officers, employees, consultants, and other representatives.
- 8.5. Any infringement of these conditions by LICENSEE or its officers, employees, students, successors and assigns, shall render the LICENSEE liable to LICENSOR for damages, whether they be direct or indirect in nature.

- 9.1. LICENSEE shall defend, indemnify and hold harmless LICENSOR and DEVELOPER against any third-party claim, loss, suit, expense, or proceeding, including attorney’s fees, liquidated damages, penalties or interest, arising out of, or related to, LICENSEE’s alleged or actual use, misuse of, inability to use, use beyond the scope of this Agreement, or failure to use the Licensed Software, including without limitation:

The Parties agree to keep the Confidential Information secret, not to make it accessible to any third party, not to publish same and to only use it for the Designated Purpose of the Agreement. Any release from this undertaking shall require express written approval from the respective party and all other parties concerned, or where mandatory statutory provisions override compliance with the obligation to maintain secrecy, the other party must be notified accordingly.
- 10.2. The obligation to maintain secrecy shall survive termination of the Agreement.
- 10.3. Notwithstanding the above provision the LICENSEE expressly agrees that LICENSOR is entitled to disclose Confidential Information to third parties to the extent this is necessary for performance of the Agreement (for example transmission of LICENSEE or User data to the DEVELOPER).
- 10.4. The Parties undertake to impose an obligation to maintain secrecy on their staff and other agents [Erfüllungsgehilfen as defined by Section 1313a of the Austrian Civil Code [ABGB]]. - 10.5. The LICENSEE, as a controller, as defined in the DSG warrants that the statutory prerequisites for use of personal data of the controller by LICENSOR for performance of the contract are fulfilled, including transmission of data to the DEVELOPER. The LICENSEE shall indemnify and hold harmless LICENSOR in this respect.
- 10.6. LICENSOR takes commercially reasonable measures to manage and prevent the unauthorized disclosure or, access to, or use of User or LICENSEE Data (“Data Incident”). No data transmissions over the Internet can be guaranteed to 100% secure. - LICENSOR assumes that the LICENSEE is interested in up-to-date information on standard software and related services. The LICENSEE agrees to receive a reasonable amount of information on standard software and related services from LICENSOR/DEVELOPER via email. In this connection the LICENSEE’s data, including its name and email address, shall exclusively remain with LICENSOR. The LICENSEE may revoke this consent at any time by letter or email. In every information email, LICENSOR will provide the LICENSEE with the possibility to decline receipt of further messages.

11. Software Security and Monitoring

LICENSOR reserves the right to embed a software security mechanism within the Licensed Software to monitor usage of the Licensed Software and to verify LICENSEE’S compliance with this Agreement. Such a security mechanism may store data relating to the usage of the Licensed Software and the number of times it has been copied, or may communicate with computers controlled by LICENSOR, or third parties, over any type of communications link to exchange communications and report data relating to the usage of the Licensed Software, its installation, the system on which it has been installed and the number of times it has been copied or accessed. LICENSOR reserves the right to use license administration software, a license authorization key to control access to the Licensed Software and/or a hardware lock device. LICENSEE may not take any steps to avoid or defeat the purpose of any such measures. Use by LICENSEE of any Licensed Software without any required security mechanism is prohibited. LICENSEE acknowledges and agrees that LICENSOR may use these features and other lawful measures to verify LICENSEE’S compliance and to enforce LICENSOR’S right under this Agreement.

12. Transfer, Assignment and Export

- 12.1. Except as otherwise provided in this Agreement, LICENSEE may not assign or transfer the Licensed Software or this Agreement to a third party without the prior written consent of LICENSOR, which may be withheld at the sole discretion of LICENSOR. Any attempt to do so without such consent will be null and void. Any change of control of LICENSEE shall be deemed to constitute an assignment for the purposes of this clause. A "change of control" includes (i) any merger, combination, consolidation, or similar business combination involving LICENSEE, (ii) a transfer of all or substantially all of LICENSEE'S assets, or (iii) a transfer of a majority of LICENSEE'S outstanding ownership units.
