CONFERENCE OBJECTIVE
The main objective of this 2nd International Conference is to bring together academic researchers and practitioners from various institutions for a timely focus on financial issues and research findings pertaining to the correlation between corporate governance and risk management in financial institutions under financial market instability, with a particular focus on new frontiers including, but not limited to, systemic risk management and finance of sports clubs.

Given the poor performance of financial institutions during the recent crisis, corporate governance and risk management systems adequacy are the main focus of attention from researchers and practitioners. Academics as well as practitioners are trying to identify the best corporate governance and risk management practices in order to improve the performance of financial institutions as well as their sustainable growth perspective.

This 2nd International Conference will provide a platform for academics and practitioners from different countries to analyze recent trends and upcoming challenges in corporate governance and risk management in financial institutions, as well as the impact of good corporate governance and risk management practices on management of systemic risk and financing sports clubs.

AREAS OF INTEREST
The Scientific Committee encourages the widest participation possible from academics and practitioners, whose useful contributions might inspire discussions, comparisons and assessments on the overall state of research in the field of corporate governance and risk management in financial institutions.

Papers on all areas of finance and economics dealing with both developed and developing countries are welcome. Specific topics include, but are not limited to: Corporate Governance; Risk Management; Banking and Insurance companies; Value creation; Efficiency; Systemic risk; Contagion; Credit risk; Market risk; Liquidity risk; Asset management; Regulation; Finance and Risk Management of European Football Clubs.
