SUMMER SCHOOL
Sustainable Land Management in Europe
Nitra (Slovakia): July 10-16, 2016

Description: The summer school is organized in the framework of the project Jean Monnet Networks: Sustainable Land management Networks, no. 564651-EPP-1-2015-1-SK-EPPJMO-NETWORK. The objectives of the summer school are to explain main objectives and initiations of the EU land management, to encourage multifunctionality of the land-use in the connection with the decision proceedings related to land management, to improve professional skills in proceeding of land management and to explain and discuss barriers and challenges of current land management policy.

Program: Over the course, the participants will work in mixed groups with students from other partner universities and exchange knowledge and practical skills. Lecturers from partner institutions will explain them legal, economic, political and environmental aspects of land management in the EU. Theoretical presentations will be completed by practical work, fieldwork and excursions. At the end of the summer school, students will use the gain knowledge and elaborate their projects on the land management.

Accommodation and travel costs: Accommodation at Student hostel of the Slovak University of Agriculture in Nitra and travel costs to/from Nitra are fully covered by the project.

Target group: PhD. students, young graduates, young researchers to 35 years from Partner University can apply for the Summer school.

Registration deadline & documents: The deadline for application is 15th April 2016. If you are interested, please send a short CV with your research/educational orientation and a personal motivation letter (in English) to the local coordinator from your University:
